

ANUPAM DAS**DVM, MS in Microbiology**

Isha Khan Hall, Bangladesh Agricultural University

Email: anupam.1801100@bau.edu.bd, [ORCID](#), [Google scholar](#), [Researchgate](#), [Linkedin](#)**RESEARCH PROFILE**

My research interests lie at the intersection of molecular virology, viral genomics, and pathogen evolution, with a focus on understanding viral diversity and host–virus interactions. I seek to develop this foundation through doctoral research on the molecular biology and evolution of viral pathogens.

RESEARCH INTEREST

Molecular Virology | Viral Genomics | Viral Evolution | Host-Virus Interactions | Avian & Emerging Viruses | Molecular Epidemiology

ACADEMIC CREDENTIALS

2025-2026	Master of Science (M.S.) in Microbiology (3 semester) Bangladesh Agricultural University, Mymensingh, Bangladesh Thesis: Molecular detection and complete genomic characterization of fowl adenovirus from field outbreak in Bangladesh	CGPA: 3.83/4.00 (Upto 2 nd Semester)
2018-2025	Doctor of Veterinary Medicine (10 semester) Faculty of Veterinary Science, Bangladesh Agricultural University	CGPA: 3.312/4.00

RESEARCH EXPERIENCE**Research assistant**

- 2024-present Viral Genomics and Infection Dynamics Laboratory ([Lab website](#)), Department of Microbiology and Hygiene, Bangladesh Agricultural University
- Complete genome sequencing and molecular characterization and isolation of fowl adenovirus from field outbreak in Bangladesh
 - Molecular detection, genotyping, whole-genome analysis, and evolutionary characterization of Human papillomavirus among women undergoing cervical cancer screening in Dhaka, Bangladesh.
 - Mutational analysis of Hepatitis B virus in patients with and without hepatocellular carcinoma in Mymensing medical college hospital, Bangladesh.
- 2025-present Livestock Research Institute, Department of Livestock Services, Bangladesh
- Molecular and genomic characterization of fowl pox virus and vaccine efficacy of LRI produced fowl pox vaccine

7 days long Research Internship

- Bangladesh Livestock Research Institute, Savar, Dhaka (October, 2024- November 2024)
- Central Disease Investigation Laboratory, Dhaka (November, 2024)

TECHNICAL EXPERTISE

- **Molecular & Virology:** DNA/RNA extraction, DNA purification, cDNA synthesis, PCR, RT-PCR, RT-qPCR, Agarose gel electrophoresis, Virus isolation, Cell culture, Embryonated chicken egg inoculation, Virus harvestion, Viral Titration (EID₅₀, ELD₅₀), Serological test, PHA, ELISA, HA, HI test, Bacterial Culture, Gram Staining, Antibiotic Susceptibility Test, Biochemical Tests.
- **Genomics & Bioinformatics:** Whole/partial genome sequencing analysis • Genome assembly • Genome annotation, Comparative genomics • Phylogenetics • Recombination analysis • Molecular evolution • Selection-pressure analysis • Protein/structural analysis

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

Badhan-voluntary blood donor org, Isha khan Hall unit, Bangladesh Agricultural University Credentials
President (2024) | General Secretary (2023) | Treasurer (2022) | General Member (2020)

- Impact: Organized 20+ awareness campaign, blood-donation/community initiatives benefiting 500+ people; led a blood-grouping campaign for 1,000+ participants.

Jalalabad student welfare association, Bangladesh Agricultural University, Mymensingh-2202 Credentials
President (2024-25) | Organizing secretary (2023-24) | Publication and Publicity secretary (2019-23) |

- Impact: Organized 10+ student/community programs and mobilized relief support for flood-affected communities.

Bangladesh Agricultural University Research Club Credentials
Additional General Secretary (2026-present)

CONFERENCE PROCEEDINGS

Genomic and pathologic insights into the first-identified genotype IIIb chicken anaemia virus strain in Bangladesh. BSVER ASCon XXXII, Bangladesh, 2026- Oral Presentation.

Complete genome sequences of fowlpox virus field strain and the livestock research institute vaccine strain from Bangladesh. BSVER ASCon XXXII, Bangladesh, 2026- Poster Presentation.

TRAINING AND CERTIFICATION

- Extension Field Trip, Department of Agricultural Extension, BAU, 2024
- Clinical Internship Completion Award, Faculty of Veterinary Science, BAU, 2025
- Hands-on training on Advanced NGS data analysis, Department of Microbiology and Hygiene, BAU, 2025
- SAKURA Science Exchange Program, Japan Science and Technology Agency, March 2026 (SSC ID:24101499)
- Blood Donor Certification, Badhan
- Registered veterinarian, Bangladesh Veterinary Council, 2025 (REG: 9682)
